This initial draft letter is a proposal to withdraw the adoption notices of the above non-government standard ASTM documents due to lack of use and no procurement history found.

If these documents are of interest to you, please provide your comments to the project officer electronically. It is very important that you attempt to respond electronically to this draft. This can be in the form of a return e-mail, with or without an attached text file. Because we believe electronic coordination should be faster than hard copy distribution, we have allotted a 45-day coordination cycle from the date of this letter. Please provide your comments within that time period. If an electronic response is not possible, we will still accept comments via letter, facsimile, or phone call, but only after you have contacted the project officer listed below. The initial draft document withdrawal notices can be found at the following DSCC-VA web page:

<http://www.dscclia.mil/Programs/MilSpec/initialdrafts.asp>

This process still requires military departments to identify their comments as "Essential" or "Suggested". Essential comments must be justified with supporting data. Military review activities should forward comments to their custodians or this office, as applicable, in sufficient time to allow for consolidating the department reply.

If there are any questions regarding these projects, please contact Gail Dever (project officer) by the preferred method of electronic mail at gail.dever@dlia.mil by telephone at commercial 614-692-8781, DSN 850-8781; or by facsimile at 614-692-6939. Our mailing address as a last resort is Defense Supply Center, Columbus, (DSCC-VAI), P.O. Box 3990, Columbus, OH 43218-3990. If you have further questions or concerns regarding this program, you may contact me at 614-692-0566 or Richard.taylor@dlia.mil.

Sincerely,
